```
<html>
<head>

  <style>

    .animated {
      background-image: url(/css/images/logo.png);
      background-repeat: no-repeat;
      background-position: left top;
      padding-top:95px;
      margin-bottom:60px;
      -webkit-animation-duration: 10s;
      animation-duration: 10s;
      -webkit-animation-fill-mode: both;
      animation-fill-mode: both;
    }

    @-webkit-keyframes fadeInLeft {
      0% {
        opacity: 0;
        -webkit-transform: translateX(-20px);
      }
      100% {
        opacity: 1;
        -webkit-transform: translateX(0);
      }
    }

    @keyframes fadeInLeft {
      0% {
        opacity: 0;
        transform: translateX(-20px);
      }
      100% {
        opacity: 1;
        transform: translateX(0);
      }
    }
  </style>
</head>
</html>
```

```
    }

    .fadeInLeft {
    -webkit-animation-name: fadeInLeft;
    animation-name: fadeInLeft;
    }
    animation-name: fadeInDown;
</style>

</head>
<body>

    <div ></div>
    <button onclick="myFunction()">Reload page</button>

    <script>
        function myFunction() {
            location.reload();
        }
    </script>

</body>
</head>
```

Output

It will produce the following result –
