Copyright © tutorialspoint.com

This is a complete reference guide for web developers where we have listed all the CSS properties related to generated content defined in the World Wide Web Consortium's Recommended Specification for Cascading Style Sheets, Level 2.

Click any property to see its description with examples:

Property	Description
content	Inserts generated content around an element.
counter-increment	Increments a counter by 1; value is a list of counter names, with each name optionally followed by a value by which it is incremented.
counter-reset	Resets a counter to zero; value is a list of counter names, with each name optionally followed by a value to which it is reset.
quotes	Sets the quote symbols used to quote text.
