

Description

The *speak-numeral* property is used in aural media to specify how to speak numerals *numbers*.

Possible Values

- **digits** – The numeral is read one number at a time; e.g., "four one two".
- **continuous** – The numeral is read in a language-dependent fashion; e.g., "five hundred eleven".

DOM Syntax

```
object.style.speakNumeral = "digits";
```

Applies to

All the HTML elements.

Example

Here is the example –

```
<style type="text/css">
  <!--
    td.phone-no {speak-number: digits;}
    td.price {speak-number: continuous;}
  -->
</style>
```
