CSS - SPEAK-PUNCTUATION

Description

The *speak-punctuation* property is used in aural media to specify how punctuation *i. e. comma* should be spoken.

Possible Values

- **code** – Punctuation is spoken literally; e.g.,*In closing, I fee that* will be read as "In closing comma I feel that".

- **none** – Punctuation is rendered as pauses of various length.

DOM Syntax

```
object.style.speakPunctuation = "code";
```

Applies to

All the HTML elements.

Example

Here is the example −

```
<style type="text/css">
   <!--
   *.literal {speak-punctuation: code;}
   body {speak-punctuation: none;}
   -->
</style>
```
