## Description

The HTML <bgsound> tag is used to play a soundtrack in the background. This tag is for Internet Explorer only.

## Example

```
<!DOCTYPE html>
<html>
<head>
<title>HTML bgsound Tag</title>
</head>
<body>
<bgsound src="/html/yourfile.mdi"/>
<p>This does create any result on the screen but it plays sound file in the
background.</p>
</body>
</html>
```

This will produce following result:

This does create any result on the screen but it plays sound file in the background.

## Specific Attributes

The HTML <bgsound> tag also supports following additional attributes:

Attribute	Value	Description
loop	number	Lets you replay a background soundtrack a certain number of times.
src	URL	Specifies the path of the sound file.
