Description

The HTML <comment> tag allows authors to comment their HTML code. This tag is supported by IE only.

It is recommended to use <!--.....--> to comment your tags. This tag is compatible to all browsers.

Example

```
<!DOCTYPE html>
<html>
<head>
<title>HTML <!--.....--> Tag</title>
</head>
<body>
<comment>This is a commented line in IE</comment>
<!-- This is a commented line supported by almost every browser. It will not appear in
output as its a comment. -->
</body>
</html>
```

This will produce following result:

This is a commented line in IE
