Description

The HTML <fieldset> tag is used for grouping related form elements. By using the fieldset tag and the legend tag, you can make your forms much easier to understand for your users.

Example

```
<!DOCTYPE html>
<html>
<head>
<title>HTML fieldset Tag</title>
</head>
<body>
<form>
  <fieldset>
    <legend>Details</legend>
    Student Name: <input type="text"><br />
    MCA Subjects:<input type="text"><br />
    Course Link:<input type="url" name="websitelink">
  </fieldset>
</form>
</body>
</html>
```

This will produce following result:

Details

Student Name:

MCA Subjects:

Course Link:
