

Introduction

The **java.lang.Interfaces** provides different interfaces used under java lang package.

Interface Summary

S.N.	Interface & Description
1	Appendable This is an object to which char sequences and values can be appended
2	CharSequence This is a CharSequence is a readable sequence of char values.
3	Cloneable This is a class implements the Cloneable interface to indicate to the Object.clone method that it is legal for that method to make a field-for-field copy of instances of that class.
4	Comparable<T> This imposes a total ordering on the objects of each class that implements it.
5	Iterable<T> Implementing this interface allows an object to be the target of the "foreach" statement.
6	Readable This is a Readable is a source of characters.
7	Runnable This is the Runnable interface should be implemented by any class whose instances are intended to be executed by a thread.
8	Thread.UncaughtExceptionHandler This is the Interface for handlers invoked when a Thread abruptly terminates due to an uncaught exception.
