

JAVA.UTIL.SIMPLETIMEZONE.USEDAYLIGHTTIME METHOD

http://www.tutorialspoint.com/java/util/simpletimezone_usedaylighttime.htm

Copyright © tutorialspoint.com

Description

The **useDaylightTime** method is used to query if this time zone uses daylight saving time.

Declaration

Following is the declaration for **java.util.SimpleTimeZone.useDaylightTime** method.

```
public boolean useDaylightTime()
```

Parameters

- NA

Return Value

The method call returns 'true' if this time zone uses daylight saving time; false otherwise.

Exception

- NA

Example

The following example shows the usage of **java.util.SimpleTimeZone.useDaylightTime**

```
package com.tutorialspoint;

import java.util.*;

public class SimpleTimeZoneDemo {
    public static void main( String args[] ){
        // create simple time zone object
        SimpleTimeZone stobj = new SimpleTimeZone(820,"US");

        // checking day light time
        System.out.println("Use day light time : " + stobj.useDaylightTime());
    }
}
```

Let us compile and run the above program, this will produce the following result.

```
Use day light time : false
```
