Problem Description:

How to write an array of strings to the output console ?

Solution:

Following example demonstrates writing elements of an array to the output console through looping.

```
public class Welcome {  
    public static void main(String[] args){  
        String[] greeting = new String[3];  
        greeting[0] = "This is the greeting";  
        greeting[1] = "for all the readers from";  
        greeting[2] = "Java Source .";  
        for (int i = 0; i < greeting.length; i++){  
            System.out.println(greeting[i]);  
        }  
    }  
}
```

Result:

The above code sample will produce the following result.

```
This is the greeting  
For all the readers From  
Java source .
```
