Problem Description:

How to shuffle the elements of a collection ?

Solution:

Following example how to shuffle the elements of a collection with the help of Collections.shuffle method of Collections class.

```
import java.util.ArrayList;
import java.util.Collections;
import java.util.List;

public class Main {
    public static void main(String[] argv)
        throws Exception {
        String[] alpha = { "A", "E", "I", "O", "U" };
        List list = new ArrayList(alpha);
        Collections.shuffle(list);
        System.out.println("list");
    }
}
```

Result:

The above code sample will produce the following result.

```
I
O
A
U
E
```
