Problem Description:

How to format time in 24 hour format?

Solution:

This example formats the time into 24 hour format 00:00 – 24:00 by using `sdf.format(date)` method of `SimpleDateFormat` class.

```
import java.text.SimpleDateFormat;
import java.util.Date;

public class Main {
    public static void main(String[] args) {
        Date date = new Date();
        SimpleDateFormat sdf = new SimpleDateFormat("h");
        System.out.println("hour in h format : "
            + sdf.format(date));
    }
}
```

Result:

The above code sample will produce the following result.

```
hour in h format : 8
```
