## Problem Description:

How to display hour and minute *currenttime*?

## Solution:

This example demonstrates how to display the hour and minute of that moment by using `Calendar.getInstance` of `Calendar` class.

```
import java.util.Calendar;
import java.util.Formatter;

public class MainClass{
    public static void main(String args[]){
        Formatter fmt = new Formatter();
        Calendar cal = Calendar.getInstance();
        fmt = new Formatter();
        fmt.format("%tI:%tM", cal, cal);
        System.out.println(fmt);
    }
}
```

## Result:

The above code sample will produce the following result. The result will change depending upon the current system time.
