Problem Description:

How to print the last modification time of a directory?

Solution:

Following example demonstrates how to get the last modification time of a directory with the help of file.lastModified method of File class.

```
import java.io.File;
import java.util.Date;

public class Main {
    public static void main(String[] args) {
        File file = new File("C://FileIO//demo.txt");
        System.out.println("last modified:" +
            new Date(file.lastModified()));
    }
}
```

Result:

The above code sample will produce the following result.

```
last modified:10:20:54
```

```
