JAVASCRIPT - ARRAY POP METHOD

Description

Javascript array **pop** method removes the last element from an array and returns that element.

Syntax

Its syntax is as follows −

```
array.pop();
```

Return Value

Returns the removed element from the array.

Example

Try the following example.

```html
<html>
   <head>
      <title>JavaScript Array pop Method</title>
   </head>

   <body>

      <script type="text/javascript">
         var numbers = [1, 4, 9];

         var element = numbers.pop();
         document.write("element is : " + element );

         var element = numbers.pop();
         document.write("<br />element is : " + element );
      </script>

   </body>
</html>
```

Output

```
element is : 9
element is : 4
```
