Copyright © tutorialspoint.com

Description

JavaScript array **reverse** method reverses the element of an array. The first array element becomes the last and the last becomes the first.

Syntax

Its syntax is as follows –

```
array.reverse();
```

Return Value

Returns the reversed single value of the array.

Example

Try the following example.

```
<html>
  <head>
    <title>JavaScript Array reverse Method</title>
  </head>

  <body>

    <script type="text/javascript">
      var arr = [0, 1, 2, 3].reverse();
      document.write("Reversed array is : " + arr );
    </script>

  </body>
</html>
```

Output

```
Reversed array is : 3 2 1 0
```
