Description

JavaScript date **getUTCFullYear** method returns the year in the specified date according to universal time. The value returned by **getUTCFullYear** is an absolute number that is compliant with year-2000, for example, 2008.

Syntax

Its syntax is as follows –

```
Date.getUTCFullYear()
```

Return Value

Returns the year in the specified date according to universal time.

Example

Try the following example.

```
<html>
  <head>
    <title>JavaScript getUTCFullYear Method</title>
  </head>

  <body>

    <script type="text/javascript">
      var dt = new Date( "December 25, 1995 23:15:20" );
      document.write("getUTCFullYear() : " + dt.getUTCFullYear() );
    </script>

  </body>
</html>
```

Output

```
getUTCFullYear() : 1995
```
