

JAVASCRIPT STRING - LENGTH PROPERTY

http://www.tutorialspoint.com/javascript/string_length.htm

Copyright © tutorialspoint.com

Description

This property returns the number of characters in a string.

Syntax

Use the following syntax to find the length of a string –

```
string.length
```

Return Value

Returns the number of characters in the string.

Example

Try the following example.

```
<html>
  <head>
    <title>JavaScript String length Property</title>
  </head>

  <body>

    <script type="text/javascript">
      var str = new String( "This is string" );
      document.write("str.length is:" + str.length);
    </script>

  </body>
</html>
```

Output

```
str.length is:14
```
