MAGENTO - SETUP PAYMENT METHODS
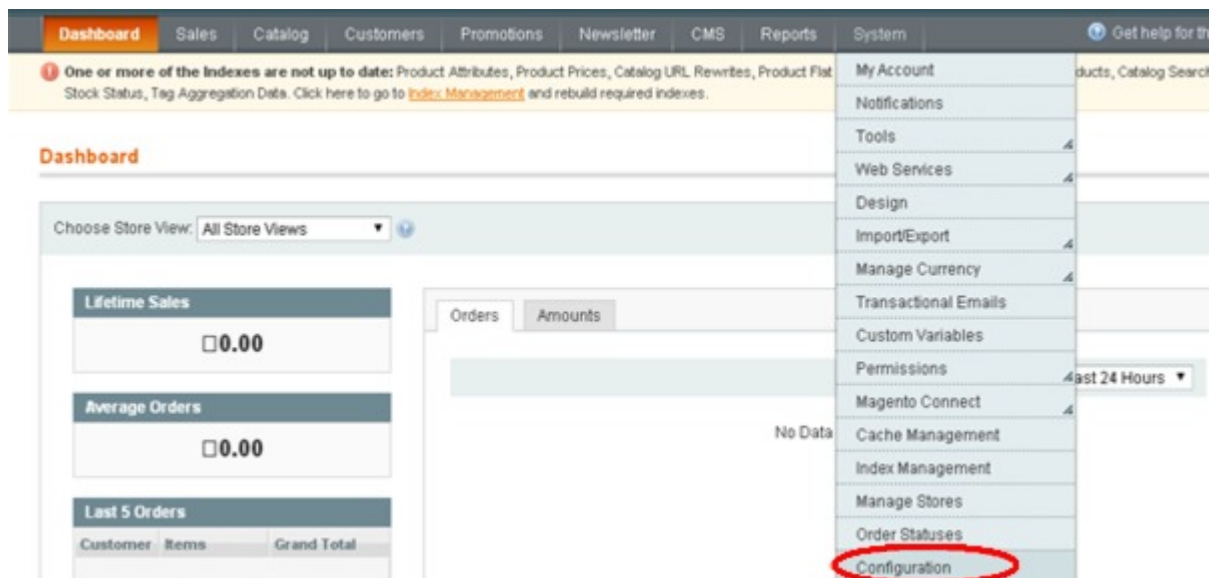

This article explains how to setup payments methods in Magento and also shows how to configure Magento to use PayPal as payment processor for both credit cards and PayPal payments.
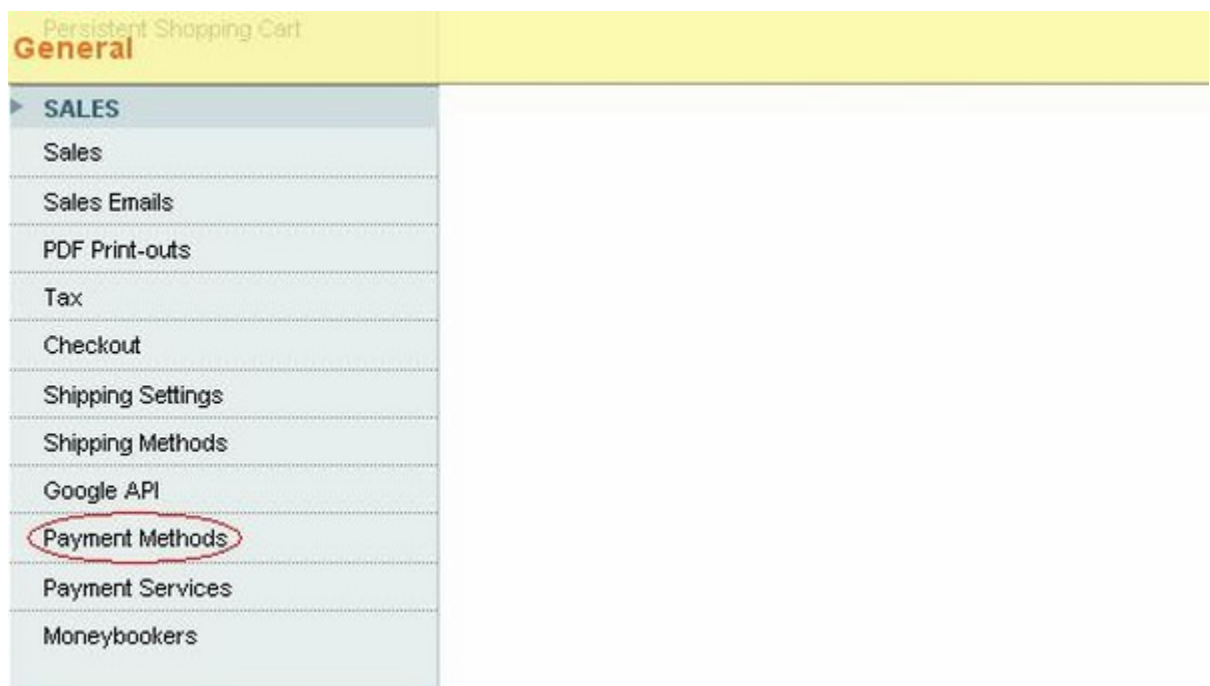

The following steps describe how to set up payments in Magento:

Step 1: Login to your Magento Admin Panel.

Step 2: Go to **System** menu and click on the **Configuration** option.

Step 3: Next you will see some list of options on the left side of the page. Scroll down and go to the **Sales** section and click on the **Payment Methods** option.

Step 4: Next under Merchant Location panel, set the merchant country from the dropdown menu.

Step 5: It provides following types of payment methods which adds PayPal as additional payment method to your checkout page.

Step 6: You can click on the **Configure** button to make PayPal settings. Fill the email field with email address which is associated with **PayPal Merchant Account** for accepting the payments and along with all other required fields.

Step 7: The below screen shows you the Basic and Advanced settings of PayPal payments.

Basic Settings - PayPal Payments Standard

Title	PayPal Express Checkout	[STORE VIEW]
	▲ It is recommended to set this value to "PayPal" per store views.	
Sort Order		[STORE VIEW]
Payment Action	Authorization ▼	[WEBSITE]
Display on Product Details Page	Yes ▼	[STORE VIEW]
Advanced Settings ▲		
Display on Shopping Cart	Yes (PayPal recommends this option) ▼	[STORE VIEW]
	▲ Also affects mini-shopping cart.	
Payment Applicable From	All Allowed Countries ▼	[WEBSITE]
Debug Mode	No ▼	[WEBSITE]
Enable SSL verification	Yes ▼	[WEBSITE]
Transfer Cart Line Items	Yes ▼	[WEBSITE]

Step 8: Under **Basic Settings**, enter *Title* for the payment method, *Sort Order* option used to sort payment methods in the checkout page, *Payment Action* section offers to select either Sale or Authorization or Order which defines how the payment will be processed in the PayPal payment system.

Step 9: Under **Advanced Settings**, select the *Payment Applicable From* option as All Allowed Countries, *Debug Mode* option as No, *Enable SSL verification* as Yes and *Transfer Cart Line Items* as Yes.

Step 10: After done with the settings, click on the **Save Config** button in top right corner to save your payment methods. Now you are ready to accept payments through your shopping cart.

Payment Methods
