Description

The Pulsate effect fades the target element to invisibility and back to full opacity five times, giving the effect of pulsating in and out of existence.

Syntax

You can use one of the following two forms to use this effect –

```
new Effect.Pulsate('id_of_element', [options]);
```

OR

```
new Effect.Pulsate(element, [options]);
```

Effect-Specific Parameters

This effect does not have any other parameter except the [common parameters](#).
