Len

The Len Function returns the length of the given input string including the blank spaces.

Syntax

```
Len(String)
```

Example

```
<!DOCTYPE html>
<html>
<body>
<script language="vbscript" type="text/vbscript">

var1 =      "Microsoft VBScript"
document.write("Length of var1 is : " & Len(var1) & "<br />")

var2 =      "      Microsoft VBScript      "
document.write("Length of var2 is : " & Len(var2) & "<br />")

</script>
</body>
</html>
```

When you save it as .html and execute it in Internet Explorer, then the above script will produce the following result:

```
Length of var1 is : 18
Length of var2 is : 36
```
