

VBSRIPT MOCK TEST

<http://www.tutorialspoint.com>

Copyright © tutorialspoint.com

This section presents you various set of Mock Tests related to **VBScript Framework**. You can download these sample mock tests at your local machine and solve offline at your convenience. Every mock test is supplied with a mock test key to let you verify the final score and grade yourself.

VBSRIPT MOCK TEST I

Q 1 - Which of the following is true about VBScript?

A - Microsoft VBScript *VisualBasicScript* is a general-purpose, lightweight and active scripting language developed by Microsoft that is modelled on Visual Basic.

B - VBScript is the primary scripting language for Quick Test Professional *QTP*, which is a test automation tool.

C - VBScript, for the most part, is case insensitive. It has a very simple syntax, easy to learn and to implement.

D - All of the above.

Q 2 - Which of the following is true about VBScript?

A - VBScript is an object-based scripting language and NOT an Object-Oriented Programming language.

B - VBScript uses Component Object Model *COM* in order to access the elements of the environment in which it is executing.

C - VBScript is a case-insensitive language.

D - All of the above.

Q 3 - Which of the following is true about variable naming conventions in VBScript?

A - Variable name must begin with an alphabet.

B - Variable names cannot exceed 255 characters.

C - Variables Should NOT contain a period.

D - All of the above.

Q 4 - Which of the following keyword is used to declare a variable in VBScript?

- A - variant
- B - var
- C - dim
- D - None of the above.

Q 5 - Is it required to specify the type of variable during declaration in VBScript?

- A - true
- B - false

Q 6 - Which of the following is a valid scope in VBScript?

- A - Dim
- B - Public
- C - Private
- D - All of the above.

Q 7 - In Which of the following scope, variables are available to all the procedures across all the associated scripts in VBScript?

- A - Dim
- B - Public
- C - Private
- D - All of the above.

Q 8 - Which of the following is correct about variable declared using 'Dim' in VBScript?

- A - Variables declared using 'Dim' keyword at a Procedure level are available only within the same procedure.
- B - Variables declared using 'Dim' Keyword at script level are available to all the procedures within the same script.
- C - Both of the above.
- D - None of the above.

Q 9 - Which of the following is correct about variable declared using 'Public' in VBScript?

- A - Variables declared using 'Public' Keyword are available to all the procedures across all the associated scripts.
- B - When declaring a variable of type 'public', Dim keyword is replaced by 'Public'.
- C - Both of the above.

D - None of the above.

Q 10 - Which of the following is correct about variable declared using 'Private' in VBScript?

A - Variables that are declared as 'Private' have scope only within that script in which they are declared.

B - When declaring a variable of type 'Private', Dim keyword is replaced by 'Private'.

C - Both of the above.

D - None of the above.

Q 11 - Which of the following is used to create a constant in VBScript?

A - constant

B - const

C - final

D - None of the above.

Q 12 - What is the scope of a constant declared using Public in VBScript?

A - The Public constants are available for all the scripts and procedures.

B - The Public Constants are available within the procedure or Class.

C - Both of the above

D - None of the above.

Q 13 - What is the scope of a constant declared using Private in VBScript?

A - The Private constants are available for all the scripts and procedures.

B - The Private Constants are available within the procedure or Class.

C - Both of the above

D - None of the above.

Q 14 - Which of the following operator is supported in VBScript?

A - Arithmetic Operators

B - Comparison Operators

C - Logical Operators

D - All of the above.

Q 15 - Which of the following operator can be used to get the modulus of two numbers in VBScript?

A - MOD

B - %

C - REMAINDER

D - None of the above.

Q 16 - Which of the following operator can be used to get the exponent of two numbers in VBScript?

A - EXP

B - ^

C - EXPONENT

D - None of the above.

Q 17 - Which of the following operator can be used to check if two numbers are equal or not in VBScript?

A - !=

B - <>

C - not

D - None of the above.

Q 18 - Which of the following operator can be used to do an XOR operation in VBScript?

A - ~

B - ^

C - XOR

D - None of the above.

Q 19 - What is the output of A + B in VBScript if A = 5 and B = 10?

A - 15

B - 510

Q 20 - Can you access Cookie using VBScript?

A - true

B - false

Q 21 - Which of the following is true about cookie handling in VBScript?

A - VBScript can manipulate cookies using the cookie property of the Document object.

B - VBScript can read, create, modify, and delete the cookie or cookies that apply to the current web page.

C - Both of the above.

D - None of the above.

Q 22 - Which of the following is the correct syntax to create a cookie using VBScript?

A - document.cookie = 'key1 = value1; key2 = value2; expires = date';

B - browser.cookie = 'key1 = value1; key2 = value2; expires = date';

C - window.cookie = 'key1 = value1; key2 = value2; expires = date';

D - navigator.cookie = 'key1 = value1; key2 = value2; expires = date';

Q 23 - Which of the following function of VBScript converts a given number of any variant subtype to Double?

A - CDbl

B - CInt

C - CLng

D - CSng

Q 24 - Which of the following function of VBScript converts a given number of any variant subtype to Integer?

A - CDbl

B - CInt

C - CLng

D - CSng

Q 25 - Which of the following function of VBScript converts a given number of any variant subtype to Long?

A - CDbl

B - CInt

C - CLng

D - CSng

Q 26 - Which of the following function of VBScript converts a given number of any variant subtype to Single?

A - CDbl

B - CInt

C - CLng

D - CSng

Q 27 - Which of the following function of VBScript converts a given number of any variant subtype to Hexadecimal?

A - Hex

B - CInt

C - CLng

D - CSng

Q 28 - How will you format a number upto 3 decimal places in VBScript?

A - Using FormatNumber Function

B - Using FormatPercent function

C - Using Int function

D - Using Log function

Q 29 - How will you format a number in percentage format in VBScript?

A - Using FormatNumber Function

B - Using FormatPercent function

C - Using Int function

D - Using Log function

Q 30 - How will you get the integer part of a number in VBScript?

A - Using FormatNumber Function

B - Using FormatPercent function

C - Using Int function

D - Using Log function

Q 31 - How will you get the natural logarithm of the given number in VBScript?

A - Using FormatNumber Function

B - Using FormatPercent function

C - Using Int function

D - Using Log function

Q 32 - How will you get the octal value of the given number in VBScript?

A - Using Oct function

- B - Using Hex function
- C - Using Rnd function
- D - Using Sqr function

Q 33 - How will you get the hexadecimal value of the given number in VBScript?

- A - Using Oct function
- B - Using Hex function
- C - Using Rnd function
- D - Using Sqr function

Q 34 - How will you get a random number between 0 and 1 in VBScript?

- A - Using Oct function
- B - Using Hex function
- C - Using Rnd function
- D - Using Sqr function

Q 35 - How will you get the square root of the given number in VBScript?

- A - Using Oct function
- B - Using Hex function
- C - Using Rnd function
- D - Using Sqr function

Q 36 - How will you get the absolute value of the given number in VBScript?

- A - Using Abs function
- B - Using Exp function
- C - Using InStr function
- D - Using InStrRev function

Q 37 - How will you get the exponent of the given number in VBScript?

- A - Using Abs function
- B - Using Exp function
- C - Using InStr function
- D - Using InStrRev function

Q 38 - How will you get the first occurrence of one string within another string using

VBScript?

- A - Using Abs function
- B - Using Exp function
- C - Using InStr function
- D - Using InStrRev function

Q 39 - How will you get the last occurrence of one string within another string using VBScript?

- A - Using Abs function
- B - Using Exp function
- C - Using InStr function
- D - Using InStrRev function

Q 40 - How will you convert a string to lower case string using VBScript?

- A - Using Lcase function
- B - Using Ucase function
- C - Using Ltrim function
- D - Using Rtrim function

Q 41 - How will you convert a string to upper case string using VBScript?

- A - Using Lcase function
- B - Using Ucase function
- C - Using Ltrim function
- D - Using Rtrim function

Q 42 - How will you trim the spaces on the left of a string using VBScript?

- A - Using Lcase function
- B - Using Ucase function
- C - Using Ltrim function
- D - Using Rtrim function

Q 43 - How will you trim the spaces on the right of a string using VBScript?

- A - Using Lcase function
- B - Using Ucase function
- C - Using Ltrim function

D - Using Rtrim function

Q 44 - How will you trim the leading as well as trailing spaces of a string using VBScript?

A - Using Trim function

B - Using Len function

C - Using Replace function

D - Using Space function

Q 45 - How will you get length of a string using VBScript?

A - Using Trim function

B - Using Len function

C - Using Replace function

D - Using Space function

Q 46 - How will you replace a string with another string using VBScript?

A - Using Trim function

B - Using Len function

C - Using Replace function

D - Using Space function

Q 47 - How will you fill the string with the specified number of spaces using VBScript?

A - Using Trim function

B - Using Len function

C - Using Replace function

D - Using Space function

Q 48 - How will you compare two strings in VBScript?

A - Using StrComp function

B - Using Compare function

C - Using InStr function

D - Using InStrRev function

Q 49 - What StrCompString1, String2 returns if String1 is less than String2 in lexicographical order?

A - -1

B - 0

C - 1

D - None of the above.

Q 50 - What `StrCompString1, String2` returns if `String1` is same as `String2`?

A - -1

B - 0

C - 1

D - None of the above.

ANSWER SHEET

Question Number	Answer Key
-----------------	------------

1	D
2	D
3	D
4	C
5	B
6	D
7	B
